MONTESPADA VENETO

ROSSO VERONA IGT

Classification:
Rosso Verona IGT - Alcohol content 13% vol.

Description:
A full-bodied red wine with an intense and brilliant Ruby colour. To the olfactory cleft, there is that characteristic scent of red and black Cherries.
On the palate it is ripe and fruity with an aroma that presents hints of violets and cherries. This wine is a product of the Red Grapes of Verona and it provinces. It is a well structured wine which is smooth to drink.

Features: These grapes are subjected to a wine making process that are akin to the techniques used for the production of other Reds Wines of the Valpolicella and of the Lake Garda regions. This is in accordance with customary techniques and specifications that favour the extraction of elegant aromas and hints, which in turn improve the olfactory sensations of the red berries which are typical of Red Wines of Verona.
A further refinement for 3 months in the bottle, gives further characteristics of roundness and complexity which are pleasing to the most refined and demanding palates.

Vineyards of origin: Produced in selected hillside locations in the Province of Verona and in the south of Lake Garda

Harvest: Traditionally harvested and manually placed in small capacity boxes.

Soil: Dark loamy soil, minimal clayey soil mixed with stones from our Veronese hills, with neutral pH alkaline levels

Aging / Perfecting: Rosso Verona IGT is achieved after fermentation process, and separation of the wine from heavy lees. It is then left to mature for a long time, in accordance with production specifications, in Large Barrels and subjected to frequent, but gentle Batonnage and stirring for a few months, to enhance the extraction of fragrances. It is subsequently bottled and left to age for at least 3 months before being put on sale.
This strong wine of an imposing structure and a good level of alcoholic content makes it a perfectly suitable candidate for further maturing for some years, thereby improving its complexity

Available format:
Bottles of 0.75L boxes of 6 Bottles
Dark Burgundy 420 grams, vertical.
Standard Natural Cork
